HAIRART COLLECTION

THE 100% BEECH WOOD HANDLE BRUSH COLLECTION

ROUND BRUSHES

The barrel is made with Germanium Ionic Ceramic Technology, when heated it emits far infrared rays and negative ions to break down the water molecules and help the hair dry faster.

The bristles are made with Carbon-Nano Technology. The carbon coated bristles absorb the heat and distribute evenly providing anti-static and anti-bacteria protection.

The smaller colored tips on the bristles penetrate the hair easier for a smooth and shiny finish!

PADDLE AND OVAL CUSHION BRUSHES

A unique combination of natural boar and nylon bristles. Perfect for styling. They provide a smooth and shiny finish! Top quality cushion pad for added comfort.
